21 October 1975

MEMORANDUM FOR: Morning Meeting Participants

SUBJECT: Congressional Material

The principal staff focal points on our four oversight committees have advised us of certain conditions that apply to our dealings with the Select Committees on executive session material which we hold as custodians for the oversight committees:

- a. Transcripts and/or related memoranda or copies thereof are not to be provided by the Agency to the Select Committees;
- b. The names of subcommittee members in attendance at such briefings are not to be provided by the Agency;
- c. The subcommittees wish to be advised before the Agency provides comprehensive listings to the Select Committees of such briefings over a particular time period, as opposed to a specific topic of interest to the Select Committees; and
- d. In response to specific requests from the Select Committees for information on briefings on a specific topic, the Agency should only furnish the identity of the subcommittee and the date(s) thereof.
